The Recycled Content of material supplied by Royal Containers and TenCorr Packaging

100 % of the medium, over **98%** of the kraft linerboard, over **93%** of white linerboard and **90%** of coated white linerboard we use to manufacture corrugated sheet stock is recycled material.

Where does the recycled material come from?

| | |
|--------------|-----------------------------------|
| Medium | 22.6 % pre-consumer waste |
| | 77.4 % post-consumer waste |
| Liner | 1.7 % pulp |
| | 23.0 % pre-consumer waste |
| | 75.3 % post-consumer waste |
| White | 7.1 % pulp |
| | 24.3 % pre-consumer waste |
| | 68.6 % post-consumer waste |
| Coated White | 10.1 % pulp |
| | 21.4 % pre-consumer waste |
| | 68.5 % post-consumer waste |
